CHICAGO, June 2.—Assurances that the government intends to protect growers in marketing their crops and that prices would be guaranteed high enough to stimulate production tended today to strengthen the wheat market. Trading, however, was extremely small in volume. Opening quotations, which ranged 1c higher all around, with July at \$1.99 and September at \$1.83, were followed by substantial further gains and then a moderate reaction.

Continued unfavorable weather gave a decided upward swing to corn values. On the advance there was much profit-taking by recent short sellers. After opening 1-2c off to 2-1-2c up the market made a general rise to well above yesterday's finish.

Oats hardened with corn and wheat. Crop reports were hopeful, but export business of late has tempered bearish enthusiasm.

Higher quotations on hogs carried pork and ribs up-grade. Closing out of spreads between lard and ribs, however, had a depressing effect on lard.
